Moscow has an enormous new cathedral, built in the Greek-Byzantine style, which covers 73,000 square feet, and has cost \$12,000,000. It has five cupolas, on which 300 pounds of gold were used as an embellishment, and thirteen bells, the largest 50 percent greater than the "Great Bell" in London. The largest door weighs thirteen tons, and cost \$30,000. The marble in the building cost \$1,500,000.

The officers of the Internal Revenue bureau and of the government secret service are reported to have unearthed a conspiracy to defraud the revenue, in which the brewers at nearly all the principal cities of the country are concerned. The discovery was made at New York that counterfeit beer stamps were in use, and, up to date, about \$14,000 worth had been seized. A large number of arrests will, it is said, soon be made.

Marshal Bazaine is said to be an object of obesity in Madrid. He was Louis Napoleon's general in the Mexican raid and abandoned the country, leaving Maximilian to his fate. He commanded at the fortress of Metz in the Franco-Prussian war, and gave it away to the Germans. He was tried by court-martial and sentenced to death but was reprieved. He then made his escape from confinement, and has since lived in Spain. His has been a strange and eventful history.

Information has just been received at the navy department that the Yantic has been quarantined at New Orleans. She recently left Colon, where the yellow fever has been prevalent. The vessel was on her way to New Orleans to take silver from the mint to that city to Washington. It is expected that arrangements will be made for conveying the silver to the Yantic in quarantine, so that its transfer will not be delayed. The Swatara, which was also sent to New Orleans to convey silver, will probably reach that city Friday.

The commission which recently visited the Central and South American states in the interest of more intimate commercial relations between these countries and the United States, has submitted a report of its work in Uruguay and the Argentine Republic. The insignificant share of the United States in the commerce of the River Plate territory is attributed to the lack of regular steamship communication. In both countries the commission was warmly received, and the Argentine government is represented as anxious to join with the United States government in subsidizing steamship lines to ply between the ports of the two nations.

United States Senator Edmunds, of Vermont, arrived home from Europe on Monday. The senator, in response to a question about the present condition of trade in England, said, "It is depressed. I made inquiries wherever I went on that point and the reply was everywhere the same. The cause is undoubtedly overproduction. England has gone on manufacturing until she has glutted all the markets. There is already a wide feeling here that England can only save herself and prevent starvation or emigration among her working people by following the example of this country and adopting a protective policy. Indeed, I think she will be compelled to do so."

Governor Bush has appointed the following delegates to the northwestern waterways convention, to be held in St. Paul, September 3:

STATE AT LARGE  
Senator Philibert Sawyer, Oshkosh.  
Senator John C. Spangler, Hudson.  
Gov. Lucius Fairchild, Madison.  
Hon. Geo. C. Gibbs, Chippewa Falls.  
Hon. J. F. Nasen, St. Croix Falls.  
Hon. F. A. Huse, La Crosse.  
Hon. D. A. McDonald, La Crosse.  
Hon. C. B. Clark, Neenah.  
Hon. George J. Stevens, Madison.  
Col. John G. Clark, Lancaster.

DISTRICT DELEGATES.

Sixth district—Hon. Richard Guenther, Hon. W. T. Parry, Hon. A. Haben, Seventh district—Hon. O. B. Thomas, Hon. John Lawler, Capt. P. S. Davidson, Eighth district—Hon. W. T. Price, O. H. Ingram, Major Hiram Hayes.

The New York Tribune, of Monday, publishes the following as the present condition of the great actor, John McCullough: "John McCullough, in the Bloomingdale asylum, is gradually losing all remembrance of his old days on the stage. Captain Connor, of the St. James hotel, his old business manager, goes regularly to the asylum to see McCullough. The captain thinks the old actor is losing ground physically as well as mentally. He has come to think that he owes Bloomingdale, as a gift from friends interested in seeing him happy in his old age. He no longer abhors in any way to the stage, or as he used to do, to engagements which he must start away to fill. Occasionally he wants all his baggage packed up to go to Chicago or Cleveland but shortly forgets all about it, and is not surprised or angered if he finds his orders have not been executed. Sometimes, McCullough, lying in his room, will burst out in recitations of poems or bits of the plays in which he has at different times appeared, but this is the only feature of his present condition to connect him with his old triumphs. When Captain Connor called last, he found McCullough almost indifferent to his presence; so much so that it was difficult to determine whether or not he recognized him. He was in the mild stupor that will more and more characterize his disease. He may die in a month, he may live a year or two. The physicians do not think he will live more than a year."

The Chicago Journal publishes the following interesting statistics of the wheat crop of the East Indies. "The wheat crop of the East Indies is now

estimated at 260,000,000 bushels for the present year. An unwelcome as the fact may appear to be, it is becoming evident that the total annual yield of wheat in the Indies is increasing year by year, and bids fair to reach such proportions that it will rival in amount the Americas wheat crop at no distant period of time. The acreage occupied by wheat in India is now about one-half of the United States wheat crop, and is said to be capable of an great expansion as the wheat zone of the northwest, in the United States and British America. In addition to this apparent fact, the railroad lines in India are stretching out with great rapidity. At the present rate of construction, in a few years will see 20,000 miles of railway in India, leading from the navigable waters of the Indus into the Punjab and thence radiating in all directions. These roads are being constructed for the express purpose of transporting the crop to the seaboard. The question still remains to be settled, however, whether wheat can be grown in India and transported to the European markets as cheap as American wheat can be delivered at the same point. It has not yet been demonstrated that this can be done. Indian labor is extremely cheap at present, but the products of Indian labor become more valuable, labor itself will rise in price. In addition to this consideration, it is twice as far by rail and ocean navigation from the Indian wheat fields as it is from the American wheat fields to the European markets. This is a most important element in the problem.

shopers.

—Miss Nettie Bell, of Beloit, has been spending a week with her friends Miss Nellie Holmes and Miss Lula Parker.

J. S. Parker has gone to Irving, Dakota, for the purpose of building a house and barn. It is hoped he will get his fill of alkali water this trip to the garden of Eden.

—Miss Robertson, of Chicago, is a guest of Mrs. T. S. Adams.

The tobacco harvest is in full progress and there is no better buying point in the state. There is an ample complement of rust. Leaf tobacco is doing well.

Mr. and Mrs. Thomas Holmes celebrated their forty-fifth wedding anniversary last Thursday. The ice cream and cake was enjoyed very much and all hope they may be spared to celebrate their golden wedding.

—Rev. T. S. Adams gave his third sermon on sacred music last Sunday evening, in connection with song service, to a large and appreciative audience. His sermon was entitled "Song in exile," taking for his text, Psalms 137. Mr. Adams feels very much encouraged in his work and hopes to see every one who cannot be at the morning service, present at the evening service.

—Wyman Graves, of Menard, Wis., has been spending a week with old friends.

The funeral of Mr. John Milner was held in the N. E. church last week Tuesday. The burial was at Turville, the Milner lost a child about six weeks ago, and now the mother has followed.

—Miss Paras Meare, of Beloit, is visiting with her people in the village. Beloit people seem to know where to go to fare sumptuously every day.

—The stam brusher is now at work. Kemmerer Bros. have commenced this week, and Jones of Turville, has been blowing his whistle for a number of days.

—Miss Fiori Clarke, of Beloit, has made glad the faces of her many friends in this village by giving them a very limited visit. We know she has been here this time. Some weeks ago we were led to believe by the expectations of others, and announced her to be here, and she would not come—just like some other contrary school-marm.

"HANDS OFF WABASH BUSINESS" IS  
THE ORDER

On All Lines West of the Mississippi  
River—The Union Pacific and South-  
western Systems Included in the  
Knights of Labor Strike.

St. Louis, Mo., Aug. 18.—The general  
executive board of the Knights of Labor in  
session in its city late Tuesday afternoon,  
issued the following circular order:

To all assemblies of the order of the Knights  
of Labor upon the lines of the Union  
Pacific railway and upon the Gould south-  
western system:

All men must be employed in the employ of the above  
companies must refuse to run, or handle  
in any manner, any Wabash railway rolling  
stock, and if this order is not recognized by  
the companies, or any of its officials, you  
will be at liberty to strike, and to order  
to call out all Knights of Labor on any of the  
above-mentioned lines without further  
orders.

The Union Pacific employees are to hold a  
mass convention upon the 1st, where the  
question of a strike is to be considered. The  
members of this system, as well as of the  
Gould system, are to strike, the Knights  
of Labor of Colorado and Bailey, of  
Ohio, members of the Knights of Labor  
executive board, left home Tuesday night for  
Cleveland, for a conference with Mr. P. M.  
Arthur of the Locomotive Engineers.

By the above order no less than 75,000  
knights have been instructed to quit work  
immediately. In referring to the order  
Speaker Edmunds said: "This  
man's bloodier times than we saw during  
the great strike of 1870."

The executive board of the Knights of  
Labor of North America was in session at  
the Plauters' house all Tuesday. Members  
of the committee from the Gould system  
and from the Wabash road were  
located at the Hotel Brown, where  
delegates were received from all the prominent  
railroad centers in the west, in response to  
the national committee. It was the intention of  
the national committee to resort to extreme  
measures, and order a general strike on the  
Gould roads Tuesday morning, but decisive  
action was delayed until the settlement of  
the branch organizations in the west had  
been learned. At 2 o'clock the national  
committee considered it advisable to fire  
their largest bomb, and a resolution was  
adopted requesting the Knights of Labor  
to call all the railroads west of the  
Mississippi river to suspend work until they  
receive further instructions from the na-  
tional committee.

The executive board of the Knights has  
also resolved to employ counsel to defend  
imprisoned members of the organization,  
prosecute the Wabash company for con-  
spiracy, and impeach Judges Treat, Brewer,  
and Kresel, of the federal courts.

F. Korn of Philadelphia, general secre-  
tary of the national committee, Knight of  
Labor, said: "The strike will last as  
long as we can hold out, but we will not  
quit as long as possible, and until after we were assured that we  
were acting in obedience to the wish of a  
large majority of our brother knights. The  
order affects not only the Gould lines, but  
every road west of the Mississippi river  
on which there is a member of our organi-  
zation employed. The Union Pacific  
has a large number of our  
men working for it. The organization  
that represents the Missouri, Kansas,  
and the Iron Mountain, and all of the  
western and southeastern roads employ  
large numbers of knights. We delayed action  
as long as we thought there was any  
hope of obtaining a conference with Mr.  
Talman. We regretted extremely to be  
obliged to issue such an order, but we con-  
sidered that our rights were in danger and  
we did it in self-defense."

In an interview Tuesday, Mr. Hall, of  
the Gould system committee, said that the  
knights will strike the roads west of the  
Mississippi. In this state the organization  
had 30,000 members. The heads of  
departments on the Wabash will have nothing  
to say about the strike.

The Gobre Democrat says: The situation  
is about this: On the Wabash road the  
Knights of Labor are all, or nearly all,  
out, and have been for some time but on  
the Missouri Pacific, Iron Mountain, Union  
Pacific and other roads, the knights are  
said to fill the shops and yards. Thus is  
this last order a guarantee of a revolution  
of the roads west of the Mississippi. It  
affords a public test of the strength of the  
Knights of Labor, and their fidelity to the principles  
which each has sworn to uphold. In fact,  
the fate of the organization seems to be in  
the issue, and it remains to be seen whether  
the 80,000 knights, a large claim to be em-  
ployed on the railroads west of the Missis-  
sippi river, will obey the call of the executive  
board, whom they vested with absolute  
power."

Foolish New York Tailors.

New York, Aug. 18.—More than 2,000  
striking Polish, Hebrew and German tailors  
were in session all Tuesday at Goldon Rule  
hall, and at night their number aggregated  
3,000. The spokesman said that they were  
paid fair below the actual worth of their  
labor, and one of their demands is that  
the tailors of the other trades in the city be  
paid the same.

The sum which it is claimed  
was \$3.49. The man said that he had  
worked hard nine and one-half hours per  
day for six days for that sum. The demand  
is made for \$13 per week of sixty hours, or  
piece-work rates which will enable the  
tailors to make \$2.50 a day of hours.  
Every leading cloak and clothing manufac-  
turer in New York is seriously affected  
by the strike at a time when winter goods  
are being made.

Delayed for Starting Their Case.

Detroit, Aug. 18.—Two weeks ago, the  
Michigan Nat'l Bank Works announced a  
10 per cent reduction in wages to take effect  
Aug. 15. The notice was received with  
consternation by the employees, of whom  
many received less than \$1 a day, and the  
most skilled only got \$1.75. There being no  
organization among them, protests were  
slow in being heard. Late Friday night a  
meeting was held, and a committee  
was formed to carry their case to the super-  
intendent. The committee stated their case  
and were promptly discharged. Thereupon  
the men and boys, 150 in number quit work,  
demanding the reinstatement of their em-  
ployees and payment of former wages.

Detroit, Aug. 18.—Two weeks ago, the  
Michigan Nat'l Bank Works announced a  
10 per cent reduction in wages to take effect  
Aug. 15. The notice was received with  
consternation by the employees, of whom  
many received less than \$1 a day, and the  
most skilled only got \$1.75. There being no  
organization among them, protests were  
slow in being heard. Late Friday night a  
meeting was held, and a committee  
was formed to carry their case to the super-  
intendent. The committee stated their case  
and were promptly discharged. Thereupon  
the men and boys, 150 in number quit work,  
demanding the reinstatement of their em-  
ployees and payment of former wages.

Plenty of Good New Tailors.

New York, Aug. 18.—More than 2,000  
striking Polish, Hebrew and German tailors  
were in session all Tuesday at Goldon Rule  
hall, and at night their number aggregated  
3,000. The spokesman said that they were  
paid fair below the actual worth of their  
labor, and one of their demands is that  
the tailors of the other trades in the city be  
paid the same.

The sum which it is claimed  
was \$3.49. The man said that he had  
worked hard nine and one-half hours per  
day for six days for that sum. The demand  
is made for \$13 per week of sixty hours, or  
piece-work rates which will enable the  
tailors to make \$2.50 a day of hours.  
Every leading cloak and clothing manufac-  
turer in New York is seriously affected  
by the strike at a time when winter goods  
are being made.

Colonel Burr Robbins made a flying visit to this city this forenoon, his circus and menagerie at Whitewater today. Colonel Robbins is in excellent health, and is doing a good business with his exhibition. The route of the show for the next ten days will be as follows: At Delavan, Thursday, Aug. 20th; Waukesha, Friday, Aug. 21st; Oconomowoc, Saturday, Aug. 22d; Watertown, Monday, Aug. 24th; Fort Atkinson, Tuesday, Aug. 25th; Harvard, (Ill.) Wednesday, Aug. 26th; Galesburg, Thursday, Aug. 27th; McHenry, Friday, Aug. 28th, and Kenosha Saturday, Aug. 29th.

The Madison Journal: "A survey of the Menomonee Lake assembly grounds is being made by Mr. L. H. Towne, of Edgerton. No material change will be made in the plans already adopted. A few streets, however, will be added. Heretofore much difficulty has been experienced in the location of tents from the headquarter's office. Ottontowne lots have been sold where trees or other obstructions stood, and thereby created much confusion. The plan now being made will avoid these difficulties, and in the future greatly aid in the comfortable location of campers."

It seems to be first class weather for Methodist picnic. Yesterday the Court Street people held one and to-day the First M. E. church is spending the day at Pop's Springs. As an enemy of dignity the Sunday school picnic has no equal. To see an elderly deacon engaged in "drop the handkerchief," while others of the brethren are running foot races, playing ball, and pitching quoits, One old member of the church even went so far yesterday as to kick the refreshment stand down in trying to mount the horizontal bar. Taken altogether the picnic is a great institution and when the party returned from a six mile moon-

### Notices.

—Wisconsin Lodge, No. 14, I. O. O. F., occupy Odd Fellows hall this evening.

—Miss Mary E. Bliss, of Oak Park, Ill., is in the city, the guest of her uncle, H. F. Bliss.

—To-morrow a large number of the residents on Washington and Madison streets, will picnic at Clear Lake.

—Mrs. L. A. Wellman, of Chicago, is in the city, a guest of Mr. H. M. Dewey, of 51 Cherry street, fourth ward.

—The First M. E. Sunday school and members of the church are at Pop's Springs to day enjoying a picnic.

—H. D. McKinney, of this city, is attending the races at Freeport in which his fine horse First Cal is entered.

—An adjourned meeting of the Business Men's club will be held this evening. A full attendance is requested.

—Prof. John M. Smith, leader of the band connected with the Burr Robbin's show, was in the city this morning, visiting friends for a few hours.

—The sound of saws and hammers is now heard in the land. Tobacco sheds are being put up in many places and the preparations for the coming crop are very extensive.

—A select party of ladies and gentlemen chartered the steamer Enterprise at eight o'clock this morning and steamed up the river for the purpose of having a pleasant day in the woods.

—A dead has been filed with the register of deeds at the court house, which is a little curious, in that the official making the acknowledgment officially styles himself a "notary public."

—Conductor Austin, of the Chicago & Iowa railway, dropped dead from heart disease on his train last night, near Rockford. Excitement incident to an alteration with a passenger, rendered death a little premature.

—Miss Irene Platner entertained a number of her friends last evening in a very agreeable manner. The home of her uncle, Hon. E. B. Eldridge was well filled with the guests and the hours were passed very enjoyably.

—Rev. Arthur H. Smith, who is spending a few months at Beloit, will deliver an address at the Congregational church Thursday evening of this week. His story of life in China is said to be very interesting. The public are cordially invited.

—Mrs. Phil. Mitchell and family, of Rock Island; Dr. L. D. Judd and family, of Philadelphia, and Miss Cecile List, of Philadelphia, are guests of Dr. and Mrs. Thor Judd. They will spend most of the summer at Dr. Judd's pleasant residence.

—A surprise party on Mr. E. H. Peletier was successfully carried out last evening by a number of his friends. They descended on his second ward home at an early hour, and the fun that was brought out made all wish that birthdays came two or three times a year instead of one.

—The Georgia Minstrel Troupe, Saturday evening, gave one of the best entertainments Stamford has witnessed this season. The company is composed entirely of colored talent. Should the "Georgians" again visit Stamford they will receive a hearty reception.—*Stamford, (Conn.) Herald.* At Lappin's hall on Friday evening, of this week.

—The remains of Mrs. E. A. Robinson arrived this noon and were taken direct from the Chicago & Northwestern depot to the cemetery. The funeral was followed by a large number of friends of the deceased in caskets and backs.

The funeral services were held at the grave Rev. Dr. Hodge conducting the services.

—Mr. Frank Dano left at the Gazette office this morning a sample of the Comstock Spanish tobacco raised on his farm by George Davis. The plant is perfect in every respect and is a beauty. Mr. Dano says that it is a fair sample in quality and size of the ten acres on his farm. The plant contains ten leaves measuring from 24 to 30 inches of fine texture and body.

—Vanderbilt and party made a trip over the West Shore road on Sunday. Having lately acquired control of this line, he now proposes to take advantage of the fact that that competition is at an end for New York business, and to this end on Monday last, passenger and freight rates out of New York were put a few pence higher. The next move will be to raise the rates on east-bound business. Those who have not taken their eastern visit will, in all probability, be obliged to pay the tiddler.

—An endorsement of the high repute which it deservedly enjoys at home (where it follows the even tenor of its way) is shown by the fact boldly advertised by the world famous Louisiana State Lottery, that The New Orleans National Bank, National Bank or Germania National bank, all leading banks of New Orleans, La., will receive any registered letters or postal orders accompanying orders. The next drawing (the 18th), will occur on Tuesday, September 8, for any information of which address M. A. Dauphin, New Orleans, La.

—After a good deal of manipulation he was attached to a cart and the vehicle filled up with boys, and the whole outfit turned loose in the street. The pony went, but mostly up in the air, and when he came down the cart was as empty as a contribution box and about as difficult to fill up for the second trip as a local newspaper column on a dull day. A colored gentleman was introduced to hold the ribbons while the turn-out meandered across the bridge and up Milwaukee street; but he was satisfied to return by a less popular thoroughfare. The pony is very nice, but he is still in the market. He is a good family horse for a small sized bachelor without children.

—Cutting Tobacco.

The plant should never be cut when damp from dew or rain, and after a drizzling rain, or even a succession of drizzles that wash the leaves, if possible the crop should stand in the field for two or three days. Rain will wash away much of the gummy matter that coats the leaf and gives it substance and weight, and the quantity of water that the broad leaves take up will seriously effect the quality. If the crop is not too ripe the leaves will recover their natural condition if left to stand a day or two after a rain.

The plants must never be taken wet into the shed, for pole rot or mushy to bacco is sure to be the result. In wet or dry weather if the plants are to be left in the barn unhang over night, they should be spread out singly for air. Cutters threaten it were better to let the plants lie in the field over night, rather than pile them up anywhere, for in one warm night a crop may be smothered.—*Lancaster New Era.*

George W. Winger to V. E. Bradford, 11th and 22d, Rockton, 2d addition to Beloit, for \$1,000.

—The Weather.

At seven o'clock this morning the thermometer indicated 61 degrees above zero. Clear with northwest wind. At one o'clock p. m. the register was 83 degrees above zero. Partly cloudy with north wind. For the corresponding hours one year ago the register was 73 and 93 degrees above zero.

—The Excursion.

An Opportunity to Visit One of the Finest Summer Resorts in the Northwest for a Nominal Price.

Green Lake, Wisconsin, is located twenty-two miles west of Fond du Lac, on the Sheboygan division of the C. & N. W. R. R. The lake is ten miles long, and from two to four miles wide, and is surrounded by picturesque banks covered with foliage, presenting an appearance of rare beauty. It is noted for its clear green water of fathomless depth, and has long been a noted summer resort, and is well worth visiting.

The Order of Railway conductors have secured an excursion train which will leave Janesville Sunday morning, Aug. 23, at 7 a. m. for this famous resort.

—Mrs. George Lockner is spending the winter in Europe.

—Some of the figures are harvesting tobacco. George S. Jackson and Tom Plaister were among the first to come.

—The Rev. Mr. Smith, of Rutland, will hold revival meetings in the hall every Saturday evening and Sunday morning from now until conference time. Every body invited.

—A very large number of people attended the lawn party last Wednesday evening. The crazy quilt was drawn by Miss Tillie Jackson, of Edgerton.

### NOTICES.

—A light ride up the river, the passengers all voted the day a pleasant one.

—A unique social scheme was very successfully carried out last evening at 50 South Main street, greatly to the delight of all participating. At eight o'clock about twenty young ladies of the teaching force procured in a body to the residence of Prof. R. W. Burton, taking that gentleman completely by surprise. After a cordial greeting by the professor and his family, and a period of lively conversation, refreshments were served. Returning to the parlor the ex-superintendent was escorted to the piano where stood an elegant engraving of Landseer's "Stag at Bay," 48x30, beautifully mounted. With this "exquisite work of art the ex-superintendent was presented, in a pleasing manner, quite informal, by his former associate teachers as a token of their kind regard. In a few feeling words expressive of thanks and admiration of the gift he responded.
